The "Livingston"

from **\$360,800.00**
+ homesite

The Livingston has an incredible layout, extreme open concept with a craftsman flair.

There's plenty of curb-appeal with this traditional craftsman style home .

Walking through the front-door, the large open two-story foyer welcomes both guests and family into it's spacious interior. Featuring a flexible room which can serve as an office or living room on one side and a formal dining room to gather with family and friends.

As you explore the home , one thing becomes clear - this home is excitingly packed with amenities. A large open family room and large eat-in kitchen with island make dinner parties or a get-together a breeze. Four

bedrooms and a game room leave plenty of private space for the family, and for the owners, a large tray master bedroom with a sitting room to escape a hectic day offers comfort and the master bathroom, which features a large walk-in closet, separate spa tub and shower, and dual vanities gives additional relaxation.

This home was designed to allow room for growth but give everyone some private areas.

Additional Concepts Include: Two-Story Family Room, 3rd Full Bathroom on 2nd Floor, Multiple Elevation Choices

we build on your lot...or ours!

Elevations shown do have some options portrayed. CK Building and Design is an equalhousing company. Contact CK Building and Design Corporation for more information about these homes. Home designs are copyright CK Building and Design Corporation. No reproduction allowed.
